

Pupil Premium Strategy Statement: St Columba's Catholic Primary School

REVIEW of the below plan

Summative data shows that our pupil premium children are making progress that is better or in line with other children.

77% of the FSM/pupil premium children are seeing Lesley our school nurse/ CAMHS/therapist. The impact of this work is significant and has allowed children to be in a place that has supported their learning, progress and mental health.

The FSM/PP children are in line with the rest of the school in relation to progress which is excellent. In writing the children are significantly above the rest of school in relation to progress, this is due to targeted support.

In terms of attainment the children without an EHCP are performing in line with their peers

The funding for next year needs to be spent in a similar way to support the needs of the children at St Columba's as it has had an impact.

This statement details our school's use of pupil premium (and recovery premium for the 2021 to 2022 academic year) funding to help improve the attainment of our disadvantaged pupils.

It outlines our pupil premium strategy, how we intend to spend the funding in this academic year and the effect that last year's spending of pupil premium had within our school.

School overview

Detail	Data
School name	St Columba's Catholic Primary School
Number of pupils in school	191 plus 29 nursery
Proportion (%) of pupil premium eligible pupils	12% but more who have not applied
Academic year/years that our current pupil premium strategy plan covers (3 year plans are recommended)	3 years
Date this statement was published	November 21
Date on which it will be reviewed	Sep 22
Statement authorised by	C O'Donnell
Pupil premium lead	C O'Donnell
Governor / Trustee lead	P Craig

Funding overview

Detail	Amount
Pupil premium funding allocation this academic year	£35,625
Recovery premium funding allocation this academic year	£3770
Pupil premium funding carried forward from previous years (enter £0 if not applicable)	£0
Total budget for this academic year If your school is an academy in a trust that pools this funding, state the amount available to your school this academic year	£39,395

Part A: Pupil premium strategy plan

Statement of intent

Our school works with families, parishes and the community to provide all our children with opportunities which will help them grow in the knowledge and love of God and each other.

We will help them to develop as a whole person by providing a curriculum which will embrace the individual needs of all pupils.

This will be done within a Catholic setting which seeks to follow the love and teachings of Jesus-Christ.

“I have come so that they may have life and have it to the full”
(John 10 : 10)

Our school was built for children who are disadvantaged or poor in any sense of the word so it is our ultimate aim that this is supported and that ALL children have life chances that allow them to flourish and be full.

Our intention is that all pupils, irrespective of their background or the challenges they face, make good progress and achieve high attainment across all subject areas. The focus of our pupil premium strategy is to support disadvantaged pupils to achieve that goal, including progress for those who are already high attainers.

We will consider the challenges faced by vulnerable pupils, such as those who have a social worker and young carers. The activity we have outlined in this statement is also intended to support their needs, regardless of whether they are disadvantaged or not.

High-quality teaching is at the heart of our approach, with a focus on areas in which disadvantaged pupils require the most support. This is proven to have the greatest impact on closing the disadvantage attainment gap and at the same time will benefit the non-disadvantaged pupils in our school. Implicit in the intended outcomes detailed below, is the intention that non-disadvantaged pupils’ attainment will be sustained and improved alongside progress for their disadvantaged peers.

Our strategy is also integral to wider school plans for education recovery, notably in its targeted support through the National Tutoring Programme for pupils whose education has been worst affected, including non-disadvantaged pupils.

Our approach will be responsive to common challenges and individual needs, rooted in robust diagnostic assessment, not assumptions about the impact of disadvantage. The approaches we have adopted complement each other to help pupils excel.

- act early to intervene at the point need is identified

adopt a whole school approach in which all staff take responsibility for disadvantaged pupils’ outcomes and raise expectations of what they can achieve

- **At St Columba’s we use a tiered approach**
- Evidence suggests that pupil premium spending is most effective when schools use a tiered approach, targeting spending across the following 3 areas below but focusing on teaching quality - investing in learning and development for teachers.
- **Teaching**
- Schools arrange training and professional development for all their staff to improve the impact of teaching and learning for pupils.

Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1: Child and family mental health, parenting and background needs impacting on behaviour, metacognition and self regulation	Many families are experiencing mental health, trauma, parenting problems. It is crucial we have someone available immediately to support these needs. We use 'Young Lives' to support the above and our support includes camhs, theraplay,seris, nursing, parent support and parenting sessions.
2 Speech and language needs	Children arrive in Nursery and Rec with very poor skills in relation to this. Many are below where they should be.
3 Poor reading skills	Children have limited knowledge of books or support at home with reading due to behaviour and parenting challenges
4 A lack of experiences in relation to cultural capital	Experience are limited and children are closed to the wider world and what is out there.
5 My child has SEND needs	To support and help parents on this journey and ensure staff are trained.

Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome	Success criteria
To support the background needs of parents and families	Sessions logged, recorded, timetabled and evaluated for all those accessing 'Young Lives' Evaluation of needs met Children using strategies in class and life
To identify and support children with poor SLC needs	All children screened on entry and provision in place to support need Progress monitored
To ensure children make good or better progress in reading	Reading progress and data Phonics progress and data

To support children and parents of children with severe needs	Feedback from children and parents about SEND support.
To provide greater opportunities	Trips timetabled and planned to give opportunities; theatre, outdoors, art

Activity in this academic year

This details how we intend to spend our pupil premium (and recovery premium funding) **this academic year** to address the challenges listed above.

Teaching (for example, CPD, recruitment and retention)

Budgeted cost: £1750

Activity	Evidence that supports this approach	Challenge number(s) addressed
SEN Inset Day training for staff and reading by 6 training £1000	Staff training is known to have an impact	Many of our PP children are also SEND so support for staff in relation to helping support needs Reading training to support children in early reading
Training from the speech and lang specialist Teaching from the Autism SATs £750	As above	As above

Targeted academic support (for example, tutoring, one-to-one support structured interventions)

Budgeted cost: £25,380

Activity	Evidence that supports this approach	Challenge number(s) addressed
----------	--------------------------------------	-------------------------------

Tutoring sessions for 5 children from the National Tutoring Prog. £330	See 1:1 support and the impact on EEF Tuition targeted at specific needs and knowledge gaps can be an effective method to support low attaining pupils or those falling behind, both one-to-one: One to one tuition EEF (education-endowmentfoundation.org.uk) And in small groups: Small group tuition Toolkit Strand Education Endowment Foundation EEF	Plug the gaps in maths for some PP children
EARLY INTERVENTION Time to talk Lego bug club Intervention -Maths Recovery -Reading Intervention (One-one tuition) - Writing Recovery -Phonic Recovery -Talkboost £25050 Extra teacher and TA hours Provide small intervention groups to enable children to catch up to their peers and consolidate learning from whole class sessions. - One-one tuition in reading where the individual will be given an intensive and regular sessions over a set period of time. -Phonics will be streamed throughout school based on the learners' needs. -Train new staff in leading intervention groups within school. -Focused talkboost sessions to enable children to develop specific language and speaking skills. Provide further lower level reading sessions and books following Lockdown	See in EEF the impact of early intervention There is a strong evidence base that suggests oral language interventions, including dialogic activities such as high-quality classroom discussion, are inexpensive to implement with high impacts on reading: Oral language interventions Toolkit Strand Education Endowment Foundation EEF Phonics approaches have a strong evidence base that indicates a positive impact on the accuracy of word reading (though not necessarily comprehension), particularly for disadvantaged pupils: Phonics Toolkit Strand Education Endowment Foundation EEF	To narrow the gaps early to stop them widening To close the attainment gap between PP children and non PP children. To ensure that children make progress in all areas of the curriculum.
Parent sessions for reading, writing and maths to help parents to support their children.	The more the parents know and realise the better	

Wider strategies (for example, related to attendance, behaviour, wellbeing)

Budgeted cost: £12,265

Activity	Evidence that supports this approach	Challenge number(s) addressed
One day and a half per week of 'Young Lives' which involves a nurse, counsellor, theraplay sessions, camhs, seris, parenting and EH support for children and families who are in need £7650	It is obvious that if children and families are struggling emotionally or with mental health etc that support will allow them to be in a better place to learn.	Helping children and families to work with the barriers and challenges life brings that is hindering their learning and progress
Purchased the welcom language screening tool and provide staff training on the use of it £850	Early screening evidence	Children arriving in school with poor speech and language can be immediately assessed and supported
Music Service and extra TA music sessions in school for pupils £2400	Children are being given chances they would not usually receive Mental health benefits	To support cultural capital and give pupils opportunities in shine in areas they may not experience
Funding pupils for trips and extra clubs £1365	Mental health	As above

Total budgeted cost: £39,430

Part B: Review of outcomes in the previous academic year

Pupil premium strategy outcomes

This details the impact that our pupil premium activity had on pupils in the 2020 to 2021 academic year.

Our internal assessments during 2020/21 suggested that the performance of disadvantaged pupils was lower than previous years in key areas of the curriculum. Some children performed as expected and others did not due to Covid related issues.

In cases where children did not perform as expected there are detailed notes as to why and the support these families received from school due to mental health issues.

School also ensured all families were visited daily or weekly depending on needs and were given school devices.

Our assessments and observations indicated that pupil behaviour, wellbeing and mental health were significantly impacted last year, primarily due to COVID-19-related issues. The impact was particularly acute for disadvantaged pupils. We used pupil premium funding to provide wellbeing support for all pupils, and targeted interventions where required. We are building on that approach with the activities detailed in this plan.

Assessments took place in school and data collated.

Some Children with SEND made good or better progress from their individual targets and some did not depending on changing needs due to Covid.

Externally provided programmes

Please include the names of any non-DfE programmes that you purchased in the previous academic year. This will help the Department for Education identify which ones are popular in England

Programme	Provider
Music Tuition	Cumbria

Service pupil premium funding (optional)

For schools that receive this funding, you may wish to provide the following information:

Measure	Details
How did you spend your service pupil premium allocation last academic year?	Intervention groups and school nurse
What was the impact of that spending on service pupil premium eligible pupils?	Children got the support needed and met expected standard despite Covid

Further information (optional)

Our HRSE Sex Education Prog was purchased with the funding last year to support self image and self worth in some of our vulnerable children.

We will be paying to subscribe again to this but this is in addition to the funding.

We have many children who are FSM unofficially as parents won't apply.

The majority of families are just over the FSM mark and we are aware of this and take into account that many have the same needs as FSM children.
